About the Home

A clean, single-level ranch on a quiet Mountain View cul-de-sac, three bedrooms and two full baths in 1,234 square feet, with a high-ceilinged living room and a separate family room with a gas-starter fireplace. The kitchen keeps its Bosch five-burner gas cooktop, and central air, forced-air heat, and an attached two-car garage with laundry are all in place. Out back, a broad concrete patio opens to a deep, level yard with mature persimmon trees, room the listing describes as space to add an ADU and build your own outdoor living. Minutes to Google, LinkedIn, and Shoreline Amphitheatre, and a short walk to the Permanente Creek Trail.

- Assigned to Monta Loma Elementary, Crittenden Middle (0.2 mi), and Los Altos High
- 50 by 100 foot cul-de-sac lot, no HOA, flood zone X, minimal hazard
- Move-in ready as it stands, with clear upside for a buyer who wants to update
